Welcome to the American Society of Civil Engineers San Bernardino-Riverside Branch (ASCE SBR Branch) web page. Whether you're interested in monthly luncheons at the Riverside Convention Center, golfing, networking in the profession, technical development, K-12 outreach, community service, social events, or sports, we have it all.

ASCE-American Society of Civil Engineers - ASCE SBRiv Branch

The American Society of Civil Engineers (ASCE) is a tax-exempt professional body founded in 1852 to represent members of the civil engineering profession worldwide. Headquartered in Reston, Virginia, it is the oldest national engineering society in the United States. Its constitution was based on the older Boston Society of Civil Engineers from 1848.. ASCE is dedicated to the advancement of ...

What is ST-RISK™?. ST-RISK™ is a software package used by insurance and mortgage due-diligence investigators and structural engineers to perform detailed earthquake risk analysis for individual buildings. These analyses and reports are used by mortgage brokers to make lending decisions, insurance brokers to rate assessments, and building owners to make seismic retrofit plans.

ST-RISK™ - Detailed Earthquake Risk Analysis for ...

Every part of a building is subject to the effects of outside forces—gravity, wind, earthquakes, and temperature changes, to name a few. Throughout history, people have constructed buildings that have withstood these forces over a long period of time, primarily using rules of thumb derived from their own experiences and those of their predecessors.

This article has been 15 years in the making, as it took that long for me to be able to distill this information into an accessible format. This is going to represent a few very important pieces of the overall puzzle of how we are going to shift this planet and everyone upon it into an ascended frequency of being.
