I have been asked at many interviews the same question again and again. The question is how would you test incremental data which gets loaded every day in their database. My position is Data warehouse QA plus BA. The main purpose of testing is to check if we have all the data from source and then to test if all the data copied from source got placed in respective tables as designed by developers.

son of Henry Tate, accountant, was born at Prahran, Melbourne, on 27 October 1873. He was educated at a local state school and as a choir boy at a St Kilda Anglican church, and developed his musical knowledge under Marshall Hall (q.v.). He worked for some time as a clerk and then became a teacher of music, but he was not overburdened with pupils as he was too conscientious to encourage a child ...
